

Please copy your codes and attach screenshots of your outputs under each question when you submit it on github. Your submission file can be in Word or PDF format. The due date for this lab assignment is April 19 at 1 PM.

1. Display the movie titles with more than 100 votes that do not have 'Star' in the title.

The screenshot shows a SQL query editor with the following code:

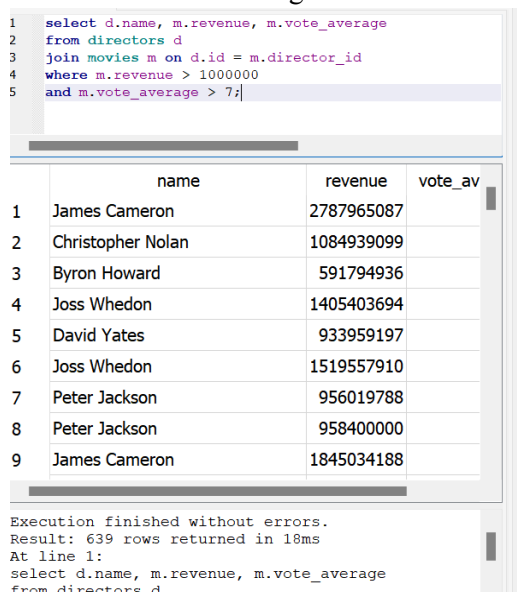

```
1 select title
2 from movies
3 where vote_count >100
4 AND title != 'Star';
```

Below the query, the results are displayed in a table with one column, 'title'. The first 10 rows are shown:

	title
1	Avatar
2	Pirates of the Caribbean: At ...
3	Spectre
4	The Dark Knight Rises
5	John Carter
6	Spider-Man 3
7	Tangled
8	Avengers: Age of Ultron
9	Harry Potter and the Half-Bloo...
10	Batman v Superman: Dawn of ...

At the bottom, the execution status is shown: "Execution finished without errors. Result: 3150 rows returned in 71ms. At line 1: select title from movies".

2. What are the names of directors who have directed movies with a revenue greater than 1 million and a vote average of more than 7?

The screenshot shows a SQL query editor with the following code:

```
1 select d.name, m.revenue, m.vote_average
2 from directors d
3 join movies m on d.id = m.director_id
4 where m.revenue > 1000000
5 and m.vote_average > 7;
```

Below the query, the results are displayed in a table with three columns: 'name', 'revenue', and 'vote\_av'. The first 9 rows are shown:

	name	revenue	vote_av
1	James Cameron	2787965087	
2	Christopher Nolan	1084939099	
3	Byron Howard	591794936	
4	Joss Whedon	1405403694	
5	David Yates	933959197	
6	Joss Whedon	1519557910	
7	Peter Jackson	956019788	
8	Peter Jackson	958400000	
9	James Cameron	1845034188	

At the bottom, the execution status is shown: "Execution finished without errors. Result: 639 rows returned in 18ms. At line 1: select d.name, m.revenue, m.vote\_average from directors d".

3. Get the names of directors who have 'Peter' in their name.

```

1 select name
2 from directors
3 where name like '%Peter%';

```

	name
1	Peter Jackson
2	Peter Berg
3	Peter Sohn
4	Wolfgang Petersen
5	Peter Ramsey
6	Peter Weir
7	Peter Chelsom
8	Peter Hyams
9	Peter Segal
10	Peter Billingsley

Execution finished without errors.  
Result: 36 rows returned in 9ms  
At line 1:  
select name  
from directors

4. Find all movies released in the year 2000.

```

1 SELECT title
2 FROM movies
3 WHERE release_date LIKE '2000%';

```

	title
1	Dinosaur
2	How the Grinch Stole Christmas
3	Mission: Impossible II
4	The Perfect Storm
5	The Patriot
6	Gone in Sixty Seconds
7	Gladiator
8	The Emperor's New Groove
9	The Road to El Dorado
10	What Lies Beneath

Execution finished without errors.  
Result: 165 rows returned in 5ms  
At line 1:  
SELECT title  
FROM movies

5. Find the names of all directors whose uid is between 500 and 5500.

```

1 SELECT d.name
2 FROM directors d
3 JOIN movies m ON d.uid = m.uid
4 WHERE d.uid BETWEEN 500 AND 5500;

```

	name
1	Christopher Nolan
2	Barry Sonnenfeld
3	Ridley Scott
4	Tim Burton
5	Michael Bay
6	Matthew Vaughn
7	Guy Ritchie
8	John McTiernan
9	Roger Spottiswoode
10	David Mamet

Execution finished without errors.  
Result: 42 rows returned in 36ms  
At line 1:  
SELECT d.name  
FROM directors d

6. Show the titles of movies with an average vote greater than 7, with at least 100 votes but not more than 500.

```
1 SELECT title
2 FROM movies
3 WHERE vote_average >7
4 AND vote_count >= 100
5 AND vote_count <=500;
```

	title
1	The Flowers of War
2	Oceans
3	The Insider
4	A Very Long Engagement
5	Lolita
6	The Life of David Gale
7	Solaris
8	Coach Carter
9	Across the Universe
10	Ray

Execution finished without errors.  
Result: 10 rows returned in 12ms  
At line 1:  
SELECT title  
FROM movies

7. Find the directors whose films have garnered a revenue of more than 1 million but have a popularity score of less than 5.

```
1 SELECT DISTINCT d.name
2 FROM directors d
3 JOIN movies m ON d.uid = m.uid
4 WHERE m.revenue > 1000000
5 AND m.popularity < 5;
```

	name
1	Simon Wincer
2	Ralph Nelson

Execution finished without errors.  
Result: 2 rows returned in 15ms  
At line 1:  
SELECT DISTINCT d.name  
FROM directors d

8. Find the total revenue generated by movies directed by 'Christopher Nolan'.

```
1 SELECT SUM(m.revenue) AS TotalRevenue
2 FROM directors d
3 JOIN movies m ON d.uid = m.uid
4 WHERE d.name = 'Christopher Nolan';
5
```

	TotalRevenue
1	115229890

Execution finished without errors.  
Result: 1 rows returned in 34ms  
At line 1:  
SELECT SUM(m.revenue) AS TotalRevenue  
FROM directors d

9. Retrieve the titles and release dates of movies that have a vote average of 'NULL'.

```
1 SELECT title, release_date
2 FROM movies S
3 WHERE vote_average IS NULL;
```

Execution finished without errors.  
Result: 0 rows returned in 17ms  
At line 1:  
SELECT title, release\_date  
FROM movies

10. List the titles of movies that either have a 'NULL' budget or a 'NULL' revenue but have a vote count greater than 10.

```
1 SELECT title
2 FROM movies
3 WHERE (budget IS NULL OR revenue IS NULL)
4 AND vote_count > 10;
```

Execution finished without errors.  
Result: 0 rows returned in 20ms  
At line 1:  
SELECT title  
FROM movies

11. List the movie titles with a vote average between 6 and 8, inclusive, that were directed by directors whose name starts with 'S'.

```
1 SELECT DISTINCT m.title
2 FROM directors d
3 JOIN movies m ON d.uid = m.uid
4 WHERE d.name LIKE 'S%'
5 AND m.vote_average BETWEEN 6 AND 8;
```

	title
1	Reds
2	My Own Private Idaho
3	Iron Man

Execution finished without errors.  
Result: 3 rows returned in 44ms  
At line 1:  
SELECT DISTINCT m.title  
FROM directors d

12. Retrieve the list of directors who have made movies that earned more than 100,000 in revenue but have a popularity of less than 10. Also, provide the count of such movies for each director.

```

1 SELECT d.name AS DirectorName, COUNT(m.uid) AS
2 FROM directors d
3 JOIN movies m ON d.uid = m.uid
4 WHERE m.revenue > 100000
5 AND m.popularity < 10
6 GROUP BY d.name;
7

```

	DirectorName	MovieCount
1	Ben Sharpsteen	1
2	Brett Ratner	1
3	Brian Helgeland	1
4	Bruce Campbell	1
5	Colin Higgins	1
6	Ralph Nelson	1
7	Richard LaGravenese	1
8	Ronald Neame	1
9	Simon Wincer	1

Execution finished without errors.  
Result: 10 rows returned in 35ms  
At line 1:  
SELECT d.name AS DirectorName, COUNT(m.uid) AS  
MovieCount

13. Find the directors who have only directed movies with a budget of over 1 million.

```

1 SELECT d.name AS director_name
2 FROM directors d
3 JOIN movies m ON d.id = m.director_id
4 GROUP BY d.name
5 HAVING sum(m.budget) > 1000000;
6

```

	director_name
1	Aaron Schneider
2	Abel Ferrara
3	Adam Carolla
4	Adam Marcus
5	Adam McKay
6	Adam Rapp
7	Adam Rifkin
8	Adam Shankman
9	Adrian Lyne

Execution finished without errors.  
Result: 1595 rows returned in 29ms  
At line 1:  
SELECT d.name AS director\_name  
FROM directors d

14. Display the directors and the total number of votes for all their movies, but only for directors who have directed at least 4 movies, sorted by total votes in descending order.

```

1 select d.name, SUM(vote_count) as total_votes
2 FROM directors d
3 JOIN movies m ON d.id = m.director_id
4 group by d.name
5 having COUNT(m.id) >= 4
6 ORDER BY total_votes DESC;
7

```

	name	total_votes
1	Christopher Nolan	62653
2	Steven Spielberg	59771
3	Peter Jackson	45533
4	Quentin Tarantino	43339
5	David Fincher	36586
6	Ridley Scott	36243
7	Robert Zemeckis	33331
8	Martin Scorsese	32866
9	James Cameron	32819

Execution finished without errors.  
Result: 339 rows returned in 414ms  
At line 1:  
select d.name, SUM(vote\_count) as total\_votes  
FROM directors d

15. List directors and the number of movies with a vote average greater than 7.0 they have directed, including only directors with more than 2 such movies.

```

1 select d.name, count(*) as movie_count
2 FROM directors d
3 JOIN movies m ON d.id = m.director_id
4 where m.vote_average > 7
5 group by d.name
5 having count(*) > 2;

```

	name	movie_count
1	Alejandro González Iñárritu	4
2	Alfonso Cuarón	4
3	Alfred Hitchcock	4
4	Ang Lee	4
5	Antoine Fuqua	3
6	Barry Levinson	3
7	Billy Wilder	3
8	Brian De Palma	3
9	Chris Columbus	3

Execution finished without errors.  
Result: 67 rows returned in 24ms  
At line 1:  
select d.name, count(\*) as movie\_count  
FROM directors d

16. Display the top 3 directors who have directed movies with the highest average revenue, considering only directors with more than 2 movies.

```

2 FROM directors d
3 JOIN movies m ON d.id = m.director_id
4 GROUP BY d.name
5 HAVING COUNT(m.id) > 2
6 ORDER BY AvgRevenue DESC
7 LIMIT 3;

```

	DirectorName	AvgRevenue
1	Joss Whedon	987943689.333333
2	James Cameron	840509919.857143
3	David Yates	742971665.333333

Execution finished without errors.  
Result: 3 rows returned in 36ms  
At line 1:  
SELECT d.name AS DirectorName, AVG(m.revenue) AS  
AvgRevenue

17. Find all movies with 'War' in the title that were released in the 2000s and have a minimum vote count of 100. Order the results by vote average in descending order.

```

1 SELECT title, release_date, vote_count, vote_ave
2 FROM movies
3 WHERE title LIKE '%War%'
4 AND release_date BETWEEN '2000-01-01' AND '2009-12-31'
5 AND vote_count >= 100
6 ORDER BY vote_average DESC;
7

```

	title	release_date	vote_c
1	Tae Guk Gi: The Brotherhood ...	2004-02-05	
2	Star Wars: Episode III - Reven...	2005-05-17	
3	Lord of War	2005-09-16

7	Charlie Wilson's War	2007-12-19	
8	Star Wars: Episode II - Attack ...	2002-05-15	
9	War of the Worlds	2005-06-28	

Execution finished without errors.  
Result: 16 rows returned in 16ms  
At line 1:  
SELECT title, release\_date, vote\_count,  
vote\_average

18. Display the top 5 most prolific directors who have the highest average vote\_average for their movies since the year 2000.

```

1 SELECT d.name AS DirectorName, COUNT(m.uid) AS NumMovies, AVG(m.vote_average) AS AvgVoteAverage
2 FROM directors d
3 JOIN movies m ON d.uid = m.uid
4 WHERE m.release_date >= '2000-01-01'
5 GROUP BY d.name
6 HAVING COUNT(m.uid) >= 1
7 ORDER BY AvgVoteAverage DESC
8 LIMIT 5;
9

```

	DirectorName	NumMovies	AvgVoteAverage
1	Robert Zemeckis	1	7.7
2	Rob Schmidt	1	7.7
3	Chris Kentis	1	7.7
4	Steven E. de Souza	1	7.4
5	Charles Stone III	1	7.4

Execution finished without errors.  
Result: 5 rows returned in 34ms  
At line 1:  
SELECT d.name AS DirectorName, COUNT(m.uid) AS NumMovies, AVG(m.vote\_average) AS AvgVoteAverage  
FROM directors d
